

## Super CleansR

### What is Super CleansR?

Super CleansR is a powerful yet gentle deep colon cleanse & parasite release that supports the body in restoring colon health and eliminating unwanted toxins and uninvited guests.

### What's In It?

**Black Walnut Hull:** Sourced from black walnut, these hulls are known to support deep cleansing of certain parasites and fungal infections. This phenomenon is due to one of the walnut's active components, juglone. In addition, the hull helps stimulate gastrointestinal activity, supporting digestion.

**Marshmallow Root:** This antioxidant-rich plant works as a diuretic, helping to reduce water retention in the body. In addition, the mucilage (fluid substance) of the plant is thought to help coat the digestive tract, supporting the body's response to gastrointestinal issues and the body's response to inflammation. Finally, this coating may also protect the gut and throat from symptoms of gastric reflux.

**Clove:** High in vitamins and antioxidants, clove is known for its antimicrobial and bacteria-fighting properties. In fact, the herb has successfully decreased strains like *E.coli* in studies and observations, such as one published in the *Brazilian Journal of Microbiology*. It is also believed that the oil from this herb can support gastric mucus production, which helps protect the gut lining from leaky gut symptoms. However, more research is needed to verify this.

**Wormwood:** Naturopaths used this herb in traditional Chinese medicine to help rid the body from parasites, due to the plant's phytochemical called artemisinin. Wormwood is also believed to help promote digestion by encouraging the cephalic phase and stomach enzyme production. Naturopaths also believe that pairing wormwood with black walnut and clove is a powerful way of eliminating parasites in the body by breaking its life cycle.

**Amalaki:** Used in ancient Ayurvedic medicine, the antioxidant-rich amalaki berry (also known as Indian gooseberry or amla berry) boasts a huge source of vitamin C. Amalaki is used by naturopaths with two other herbs to create triphala, a gut-supporting tonic that may help soothe bloating, constipation and stomach pain. The mix is also thought to encourage cleansing and detoxification.

---

Cascara Sagrada Bark: Used in Native American medicine, this herb is thought to support digestive health. A plant compound called anthraquinones can encourage elimination and detoxification of the gut. It is believed to stimulate peristalsis (colon muscle contractions).

Senna Leaf: Naturopaths have used this leaf to encourage relief from constipation in ancient healing practices. Anecdotal evidence also suggests that Senna leaf and fruit can support cleansing the body of parasites.

### **Suggested Use**

Take 2 capsules twice daily. Best taken with a green drink or food.

### **Why We Make It?**

Super CleansR was specifically created to support cleansing and detoxification during the Ultimate Lifestyle Transformation. Every day, our bodies can be exposed to toxins and parasites, not just in raw fish, but in contaminated foods and water. Toxins may also be spread through the air we breathe.

To combat this, Purium Founder studied powerful herbs and finally formulated Super CleansR. Super CleansR is made of ancient herbs that are thought to stimulate the bowels and deep cleanse the colon for a thorough detoxification process. The herbs may help gently, but efficiently improve peristaltic action, helping to reduce constipation and loosening embedded and impacted fecal matter.

Because of the strength of this synergistic combination, it is recommended to be used for only 10-days and at most, only a couple times per year.

### **Other Ingredients**

Other ingredients include: Cellulose Capsule

### **Dave Sandoval's Product Pairing Suggestions**

Dave recommends pairing Super CleansR with:

- Ultimate Lifestyle Transformation: To help start a new healthier lifestyle
- Daily Fiber: For healthy digestion and elimination
- Aloe Digest: For a healthy gut

### **Related Information**

---

If you have a medical condition, are pregnant or breastfeeding, consult a medical practitioner before consuming any dietary supplements.

### **FDA Statement**
